

Calling All Student Architects and Designers:

Formica Corporation's annual FORM Student Innovation Competition is now open for entries from the U.S., Canada and Mexico!

Celebrate FORM's ninth year by designing a furniture piece inspired by this year's theme "Mood-Boosting Design" and show how design elements like color and texture can be used to inspire, emotionally uplift and spark joy.

Three winners will receive cash prizes and an expenses-paid trip to join Formica Corporation at NeoCon 2026 in Chicago, where the grand prizewinner's fabricated design will be showcased.
